HDPE WORKBOATS

Plate construction

HDPE panels are CNC-cut and joined by extruder welding. Damage in the field can be repaired by welding in place.

Hull	UV-stabilised HDPE plate
Joining	CNC cutting and extruder plastic welding
Structure	Watertight compartments
Fenders	Side and bottom fender system
Propulsion	Outboard motor, supplied or customer-fitted
Build	Standard models and project-specific sizes

Length, capacity and class approval are confirmed for each build.
