

ASAKUA

BT-100 / 4"

AQUACULTURE EQUIPMENT

Fish transfer pump

A 4-inch-class live fish transfer pump for hatchery, vaccination and pond / cage transfer applications.

Archive product image. Equipment layout may vary by version.

Connection diameter

100 mm

Maximum fish transfer

7.5 t/h

Transfer control

Variable speed

Maximum values may not be achieved simultaneously. Application conditions require technical assessment.

Technical specifications

BT-100 | 4-inch class

Controlled transfer. Mobile operation.

Adjust transfer rates through the speed-control panel and position the wheeled unit around the facility. Selection depends on fish species and size, and on the transfer line.

PARAMETER	BT-100
Suction nozzle diameter	100 mm
Discharge nozzle diameter	100 mm
Main pump motor	1.5 kW
Vacuum motor	3 kW
Machine weight	210 kg
Power supply	380 V
Maximum water discharge	75 t/h
Maximum fish transfer	7.5 t/h
Maximum transfer height	5 m
Maximum transfer length	100 m
Cable length	10 m

Maximum values may not be achieved simultaneously. Application conditions require technical assessment.

Let's assess your application.
