Fish transfer pump

A 2½-inch-class pump for hatchery and fish-farm transfer applications. Supplied by ASAKUA.

BT-63 / Product view.

Connection diameter	Maximum fish transfer	Transfer control
63 mm	4 t/h	Variable speed

Technical specifications

2½ inch / BT-63

Suction nozzle diameter	**63 mm**
Discharge nozzle diameter	**63 mm**
Main pump motor	**1.5 kW**
Vacuum motor	**0.75 kW**
Power supply	**380 V**
Maximum water discharge	**38 t/h**
Maximum fish transfer	**4 t/h**
Maximum transfer height	**5 m**
Maximum transfer distance	**100 m**
Cable length	**10 m**

Variable-speed control and a wheeled chassis for positioning within the facility. Pump selection depends on fish species and size and the transfer-line conditions.
